

Wycap Design has extensive experience working directly with boat builders, yards, interior designers and decorators, and government organizations. In fact, we got our start back in the fifties as an OEM supplier for Chris-Craft boats, when they were built in South Florida. We sell directly to the trade and offer wholesale pricing to the marine industry.

Some of our OEM customers include:

- Burger Yachts
- Intrepid Powerboats
- Ferretti Group
- Camper & Nicholson
- Royal Denship Shipyards
- Marquipt
- Merrill-Stevens Shipyards
- Bluewater Towers
