

Our 8,000 square foot facility is home to over twenty of the most experienced craftsmen and women in the industry. Our shop is divided into separate departments for upholstery, flatwork, carpentry and metal work. Each craftsman or woman is a specialist in his or her own craft. Our large shop and large staff allow us to complete large jobs quickly and efficiently.

We love visitors and encourage all customers and prospective customers to visit our shop, meet our team, and see first hand what sets Wycap apart.
