

We'd like to think we stand out in a here today, gone tomorrow industry. We opened our doors in 1957 as a small shop in South Florida, outfitting Chris-Craft boats when they were still built in Pompano Beach. Now we're the largest custom marine upholstery and coverings manufacturer in South Florida. But ask any member of our staff: we don't sell canvas and upholstery, we sell consistency and service. We work for builders, captains, brokers, designers and owners who work on tight deadlines and demand attention to detail. We've been doing what we for over fifty years – **delivering quality products, on time and at a fair price.**
